

I continue to receive unsolicited faxes. They disrupt my work and sometimes my sleep, They incurr a toll from my office to my home in another town, and waste my fax paper.

I am a mental health counselor, who must forward my business phone to my home in cases of patients in crisis. I constantly call the number for removal, but am beginning to suspect that instead of removal, my number is being added to lists being sold to more junk-faxers.

Please stop them from stealing my time, paper, and incurring extra tolls.

Thank you.
